STEP INTO INNOVATION

Aprilia firmly believes in gearing towards a brighter future. And we believe that we must spearhead the move into tomorrow. And with the BS-VI ecosystem, we'll be able to achieve that dream. The Aprilia range of scooters have already introduced a green revolution with the Fi-injected technology. The all-new scooters come with bright LED headlamp and taillamp as well as USB charger and a utility box light which together gives an overall superlative performance with enhanced technology. The Fi-technology also results in cleaner emissions and helps reduce the stress on our environment. So, it's safe to say that with Aprilia, you are quite literally, living in the future.
